ONSITE ASSISTANCE & EMERGENCY RESOURCES | What if I test positive for COVID-19?

Club Med resorts have integrated strict health & hygiene protocols through their [Safe Together](#) program to prevent the spread of COVID-19. In the unfortunate event that you receive a positive test during OC2022, you will be asked to complete a self-isolation period at the resort that will be covered through Club Med's Emergency Assistance Program.

After self-isolation at the resort, you will be tested again for COVID-19. If the result is negative, you will be able to travel.

Expenses will be covered through the program for up to 10 days of self-isolation at the resort or if you develop more severe symptoms, you will be transported to a local hospital to receive treatment. Medical expenses will also be covered up to 75,000 EUR.
